UNE HISTOIRE ET DES VALEURS

Vous offrir des **solutions adaptées** et des **conseils techniques** de pointe.

En tant qu'experts en **réhabilitation de canalisations**, nous savons que la confiance repose sur un accompagnement technique de qualité. Notre engagement est simple : identifier vos attentes, anticiper vos besoins et vous fournir les solutions les plus efficaces pour vos problématiques.

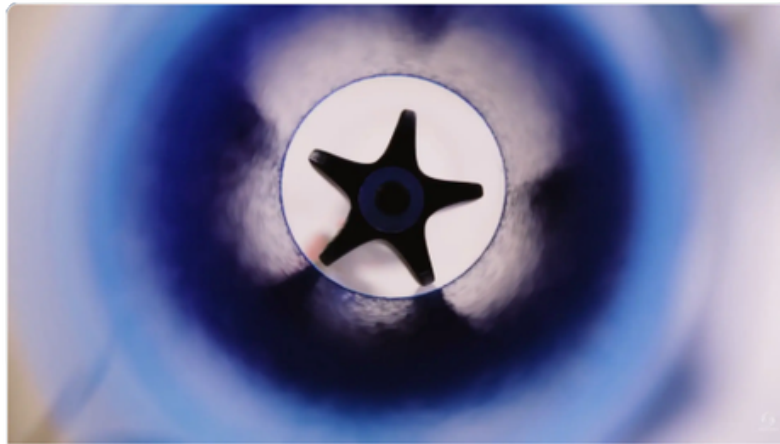

NOS SOLUTIONS

MANCHETTES

Réparez une fuite ou une casse dans une canalisation localement en posant une manchette.

APPLICATION DE RÉSINE

Rendez l'étanchéité de canalisations verticales sur plusieurs dizaines de mètres grâce à l'application de résine.

GAINAGE

Rendez l'étanchéité et la caractéristique mécanique de canalisations sur plusieurs dizaines de mètres grâce au gainage.

ROBOCANA vous accompagne dans vos travaux de réhabilitation en vous proposant la vente de consommables, la location de matériel adapté, ainsi qu'une formation complète à leur utilisation et aux techniques d'intervention les plus efficaces.

FORMATION

Nous pensons que vendre le bon produit ne suffit pas. Il faut aussi la formation pour en tirer le fonctionnement optimal. Avec 15 ans d'expérience, nos techniciens peuvent vous apporter notre expertise et accompagner vos équipes dans leur montée en compétences.

Nous proposons des formations aux techniques suivantes :

- Manchette
- Application de résine
- Gainage
- Fraisage mécanique

Ces formations sont constituées d'une partie théorique pour comprendre les fondamentaux de ces métiers, et son suivi d'une prise en main pratique dans nos centres de formation.

VENTES

Nous proposons à la vente de nombreuses solutions et assurons la livraison sous 24 à 48 heures partout en France, en Belgique et en Suisse, sur une large gamme de produits en stock.

LOCATION

ROBOCANA dispose d'une large gamme de matériels en location pour vous assister dans vos travaux de réhabilitation de canalisations, notamment en vous louant une gamme de robots, de matériels pour les travaux de nettoyage et travaux de préparations de canalisations, ainsi que du matériel de réhabilitation ponctuelle ou continue.

Picote Mini Multi-Cutter Powered by BZ-BOTS

A powerful but simple mechanical robot, harnessing the high speed and torque of the Mini Miller +C for precision and performance. This robust Multi-Cutter delivers impressive results in underground or vertical pipes, with a small setup footprint and without the need for a large compressor.

It navigates multiple 90° bends with ease, making it ideal for CIPP reinstatements and concrete/failed liner removal in DN100-150 pipes with a range up to 26m.

View operations via the integrated camera module while using the Picote Push Rods and Control handle to position the Cutter. Compressed air controls the cutting head movement (up/down). The tool case, portable Mini Miller +C HD with a 25.7cm LCD Screen and Push Rods combined with a small compressor easily fit into any service vehicle.

All Mini Multi-Cutter Packages Include:

- Mini Multi-Cutter for DN100-150
- Integrated Camera Module
- DN100 & DN150 Centralisers
- Control Handle
- Carbide Ball Milling Head, Ø = 26x29mm
- Carbide Half Ball Milling Head, Ø = 30x15mm
- Carbide Half Ball Milling Head, Ø = 46x32mm
- Diamond Ball Milling Head, Ø = 36mm
- Diamond Ball Milling Head, Ø = 46mm
- Mini Multi-Cutter Tool Case

Versatile Multi-Use Packages

- **Mini Multi-Cutter:** with integrated camera module and DN100 & 150 Centralisers. DN200 Centralisers in development.
- **Multiple Milling Heads:** 3 Carbide Milling Balls & 2 Diamond Milling Balls (multiple sizes).
- **Mini Multi-Cutter Tool Case:** Compact and robust tool case with extendable handle for easy storage and transportation.
- **Push Rods:** Strong enough to push, pull and rotate, while also flexible enough to navigate multiple bends. Also use with Picote Connection Collars, Packers and Grabber Heads for Push Rods.
- **Control Handle:** Makes pushing, pulling, rotation & air control incredibly easy and intuitive.

Mini Multi-Cutter DN100-150 Complete Package

An all in one package that includes everything needed to use the Picote Mini Multi-Cutter. Package includes 1x Picote Mini Multi-Cutter and Tool Case/Accessories (1270000001 or 1270000001UK), 1x Mini Miller +C HD (3540005817 or 3540005817UK), 10x 22mm Push Rods 1.5m (1410000023), and 1x 22mm Push Rod 0.75m (1410000049).

Product #	Product	MSRP
1270000002	Mini Multi-Cutter DN100-150 Pkg EU	€ 32,370.00
1270000002UK	Mini Multi-Cutter DN100-150 Pkg UK	€ 32,370.00

Mini Multi-Cutter DN100-150 +C HD Upgrade Package

For Mini Miller users to add the ability to use the Picote Mini Multi-Cutter with their existing machine. Package includes 1x Picote Mini Multi-Cutter and Tool Case/Accessories (1270000001 or 1270000001UK), 1x Mini Miller +C HD Upgrade Kit (3540005000EU or 3540005000UK), 10x 22mm Push Rods 1.5m (1410000023), and 1x 22mm Push Rod 0.75m (1410000049).

Apartment Building
Rehabilitation Vantaa, Finland

During the rehabilitation of a 25-unit residential apartment building, the Picote Mini Multi-Cutter proved its value in one of the project's most challenging reinstatement applications. Following CIPP lining, the tool navigated five 45° bends and multiple pipe diameter transitions to restore connections from a DN100 lateral to a mainline. By providing a fast, precise, and non-destructive solution, the Mini Multi-Cutter reduced installation time, simplified the reinstatement process, and delivered reliable results in a difficult pipe configuration.

ProLITE 6 Miller

- 6mm shaft
- Cleaning DN32-75
- Max Range: 19m (no ext)
- Weight: 13.6kg
- Speed: 850-2150 rpm

The newest addition to the Picote Miller range. High speed professional-level performance in a compact, lightweight design. The battery powered ProLITE 6 Miller makes cleaning, descaling, and blockage removal in small-diameter drains fast and efficient. At just 13.6kg (including battery), it's easy to carry, quick to set up, and ideal for tight spaces. The compact frame and ergonomic handle make it a practical choice for everyday use.

The ProLITE 6 Miller includes 20m of 6mm flexible shaft (19m range), designed for DN32-75 pipes.

Standard safety features: protective outer shaft casing, operator presence foot control, electronic safety clutch & stop button.

Product #	Model	MSRP
3510000620	ProLITE 6	€1,889.00
3510000001	ProLITE Spare Battery	€ 117.50
3510000003EU	ProLITE Dual Charger 230v & 2 Spare Batteries	€ 339.00

ProLITE 8 Miller

- 8mm shaft
- Cleaning DN50-100
- Max Range: 14m (no ext)
- Weight: 14.6kg
- Speed: 850-2150 rpm

The newest addition to the Picote Miller range. High speed professional-level performance in a compact, lightweight design. The battery powered ProLITE 8 Miller makes cleaning, descaling, and blockage removal in small-diameter drains fast and efficient. At just 14.6kg (including battery), it's easy to carry, quick to set up, and ideal for tight spaces. The compact frame and ergonomic handle make it a practical choice for everyday use.

The ProLITE 8 Miller includes 15m of 8mm flexible shaft (14m range), designed for DN50-100 pipes.

Standard safety features: protective outer shaft casing, operator presence foot control, electronic safety clutch & stop button.

Product #	Model	MSRP

Mini Cleaner

- 8mm shaft
- Cleaning DN32-75
- Cutting DN32-75
- Coating DN32-75
- Max Range: 16m (no ext.)
- Weight: 26.5kg.
- Speed: 500-2100 rpm.

Designed with plumbers in mind. Cleaning, descaling, roots, cutting & coating in small pipes is now easier than ever before. It features a highly flexible shaft allowing work in smaller diameter pipes, even those with multiple 90° bends and P-traps as small as DN50. In the UK, and other countries without syphonic toilets, it can also be pushed through the toilet and into the stack pipe for cleaning. It is fed by a standard wall outlet* making it very easy to use on almost any job site.

Standard safety features: protective outer shaft casing, operator presence foot control, mechanical safety clutch & stop button. *Operate with a 1.5kVA 110V/16amp transformer in UK.

Product #	Model	MSRP
3540000816	230v	€ 3,195.00

Mini Cleaner +C

- 8mm shaft
- Cleaning DN32-75
- Cutting DN32-75
- Coating DN32-75
- Max Range: 16m (no ext.)
- Weight: 31kg.
- Speed: 500-2100 rpm.

The Mini Cleaner +C features an integrated 30m colour camera that makes viewing of cleaning and cutting jobs easier and helps to make Picote Brush Coating™ setup even simpler. Features a smaller colour camera head that allows it to follow the Mini Cleaner, even through DN50 P-traps & bends.

Camera Specs: Head Diameter 14mm, 30m cable. Stainless steel camera head (IP68). 512hz integrated sonde. 17.8cm colour monitor. Lighting: 8 LEDs with brightness control. Digital footage counter. Record footage via SD card.

Product #	Model	MSRP

Battery Super
Mini Cleaner

- 8mm shaft
- Cleaning DN32-75
- Cutting DN32-75
- Coating DN32-75
- Max Range: 16m (no ext.)
- Weight: 33kg.
- Speed: 550-2200 rpm

The Battery Super Mini Cleaner runs off long-lasting batteries - but it is much more than just a battery-powered version. It is a complete reimagining of what smaller diameter pipe cleaning and rehabilitation equipment can be with new features like an electronic clutch, stepless speed control and a dedicated motor, making it more mobile, efficient, eco-friendly and far more powerful! It makes quick work of cleaning, descaling, root removal, cutting, reinstatements & Picote Brush Coating™ in DN32-75 pipes. Easy to transport and operate regardless of power outlet locations or availability! Includes Standard Battery for up to 3 hours of continuous work. Can run while plugged into a wall outlet. This is not an upgrade, it's a whole new way of working! Safer, stronger, smarter. Operate with a 1.5kVA 110V/16amp transformer in UK.

Product #	Model	MSRP
3540002816	230v	€ 4,800.00
3540002816UK	110v	€ 4,800.00

Mini Miller

- 8mm shaft
- Cleaning DN50-100
- Cutting DN50-75
- Coating DN50-150
- Max Range: 16m + 10m ext.
- Weight: 27kg.
- Speed: 500-2900 rpm.

The Mini Miller is a high-speed, high-torque unit designed for cleaning, descaling and removing roots in DN50-100 pipes and for cutting/ reinstatements in DN50-75 pipes. When paired with the Picote Mini Coating Pump or Xpress Coating System it is capable of Picote Brush Coating™ in DN50-150 pipes as well. Weighing only 27kg, its 8mm shaft has a reach of 16m, which can be extended 10m by adding a shaft extension. It is fed by a standard wall outlet* making it very easy to use on almost any job site.

Standard safety features: mechanical safety clutch, operator presence foot control, protective outer shaft casing & stop button. *Operate with a 1.5kVA 110V/16amp transformer in UK.

- Weight: 69kg.
- Speed: 500-1500 rpm.

The Super Midi Miller is designed for cleaning, descaling, root removal and cutting/reinstatements in DN70-150 pipes. It has a range of 20m that can be increased by an additional 10m with a shaft extension. It can also be paired with the Picote Maxi Coating Pump or Xpress Coating System to coat pipes DN70-200. Offers the added strength of the larger 12mm shaft paired with a thinner shaft casing for increased flexibility. It is fed by a standard wall outlet making it very easy to use on almost any job site.

Standard safety features: protective outer shaft casing, operator presence foot control, electronic safety clutch and stop button. Operate with a 1.5kVA 110V/16amp transformer in UK.

Product #	Model	MSRP

Miller**

- 12mm shaft
- Cleaning DN70-250
- Cutting DN70-200
- Coating DN70-300
- Max Range: 30m + 15m ext.*
- Weight: 89kg.
- Speed: 500-1475 rpm.

The Maxi and Maxi Plus Millers are high-speed, high torque powerhouses. Designed for tough challenges like heavy cleaning, removing concrete or failed CIPP liners, lateral reinstatements and Picote Brush Coating™. Featuring a 12mm flexible shaft, they have a range of 30m that can be extended 10m with a shaft extension. *The 240v model can be extended 15m due to increased power capabilities. They can also be used for Picote Brush Coating™ by pairing with the Maxi Coating Pump or Xpress Coating System. Maxi Plus features a detachable control box.

Standard safety features: protective outer shaft casing, operator presence foot control, electronic safety clutch, and stop button.

Power+**

- 18mm shaft
- Cleaning DN100-300
- Cutting DN150-300
- Concrete Removal DN150-225
- Liner Removal DN75-225 (DN75 in straight pipe only)
- Max Range: 18m + 2 x 11m ext.
- Weight: 129kg.
- Speed: 500-1500 rpm

The Maxi Power+ is our most powerful Miller for the toughest jobs. Perfect for heavy tuberculation and problem roots. Remove concrete or failed CIPP liners with a range of heavy-duty, specialised tools. Unique power requirements mean the unit needs to be run off a 3-phase 400v generator. For heavy-duty work in larger pipes.

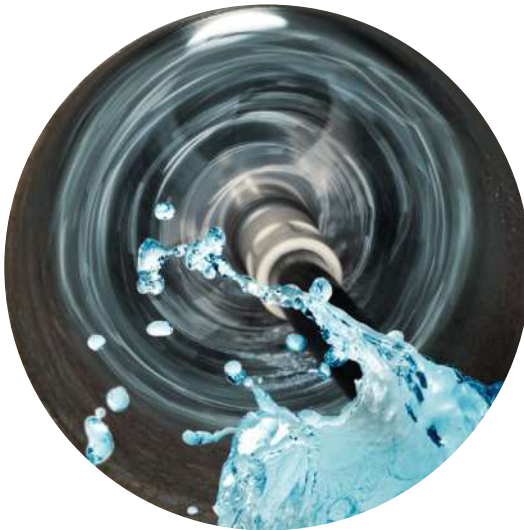

Standard safety features: protective outer shaft casing, operator presence foot control, electronic safety clutch, and stop button.

PICOTE AQUA FOR WATER

High-Speed Cleaning for Water Pipes

Picote offers a range of high-speed, high torque machines and tooling for the toughest of challenges. Picote Aqua takes the same technology from our tried and tested Picote Millers used on thousands of wastewater job sites worldwide every day and applies it to water, with easily identifiable machines specific for water usage and a range of tooling to tackle almost any descaling challenge.

Millers with Food Grade Shaft Oil

A full range of high-speed multi-use Aqua Millers are available for cleaning and descaling as well as for cutting and coating. We have several Aqua models, including the Midi Cleaner, Super Midi, Maxi Miller and Maxi Power+, to meet your needs. All Aqua Millers use Food Grade Shaft Oil.

Easily differentiate between Millers for potable water and wastewater jobs!

Smart Spider

For descaling damaged pipes with missing sections or holes, where chains (or other common descaling methods) may be too aggressive, get stuck, or even come out of the pipe. Also good for Fats, Oils & Grease (FOGs). Also great for jumping damaged pipe sections with a CCTV camera attached to the shaft to fully inspect damaged pipe runs.

Extend the life of pipes with the Picote Brush Coating™ System

Protect pipes for longer with Picote Brush Coating™. Clean pipe thoroughly, then apply two coats for a corrosion barrier. Alternatively, apply additional coats of resin to form a seamless new semi-structural pipe, providing a solution intended to last 30-50 years.*

*Number of coats depends on pipe diameter.

Picote Xpress Coating DN50 Copper Rainwater Stack Pipe

"It simply works" - Timo Jensen, Managing Director of aqendo Berlin, Germany

New with Xpress System 2.0

Heated Hoppers

Heated Hoppers are now 5L each. Added heating elements & insulation. Heating automatically turns on when the hopper is below 35°C & shuts off when it reaches 50°C.

Software Updates

Software version starting from: 2.xx.xx. Opens up future possibilities & safety features like pressure difference control & spray coating.

Lid Locks

Locking levers on the lids. Makes sealing and removing very convenient.

Pressure Sensors

Added pressure sensors. Control pumping volume more accurately and set pressure difference limits as a safety feature. This feature requires a software update to 2.xx.xx.

Heated Hose Pack - Option 2 Only

Updated Delivery Hose Reel with component hoses and heating element contained in a robust sleeving. Slip Ring on the Reel. Separate plug. 220v and 110v models available.

Picote Xpress Resin

Xpress Epoxy Base and Catalyst mixes at 1:1 ratio. 100% Solids Epoxy features a superior thickness of up to 1mm per layer and as little as 1 hour curing time between coats at 25°C using a Picote Heater. Larger resin containers reduce waste and costs.

Product #	Resin	MSRP
2220300003B	Picote Xpress Epoxy Base (14kg/11.13L)	€ 532.00
2220300003C	Picote Xpress Epoxy Catalyst (11kg/11.13L)	€ 418.00

Small Diameter Hose Package

2220300011 **€ 1,075.00**

Go Small! The Xpress Coating System includes the Small Diameter Hose Package for DN32-50 pipes. 1x 2220300008 Mixing Tip (10pcs), 1x DN50 delivery hose package (2m transmission hose from Xpress Pump and 15m of double delivery hose) and 6x of disposable DN32 single delivery hose.

Xpress Coating Pump System 2.0

- For DN32-300 Pipes
- 40 metre range

The new Xpress Brush Coating System provides faster curing times, no waste, less mess, and minimal setup time for revolutionary cost and time savings, featuring dual hydraulic resin cylinders. It has a built-in 24v, 882Wh battery providing several hours of working time, or it can also run continuously when plugged in.

The new 1:1 epoxy features an increased thickness per layer and as little as 1 hour curing time between coats at 25°C.

The system also includes a motorized Delivery Hose Reel that stores 40m of delivery hose on board, allowing for easier setup, movement and storage. Additionally, the system comes with a Small Diameter Hose Package and a Xpress Static Mixing Tip & Y-Fitting package (10 pieces).

Option 1: Updated Pump, new larger heated fill/resin tanks, new caps on fill/resin tanks, additional lifting handles, flow adjustment. The included Reel Heating Blanket helps maintain the resin temperature.

Option 2: Same as option 1, but with hose reel with heated hoses (no Reel Heating Blanket).

Brush Guide for Pool Pipes DN40-50

NEW!

During Picote Brush Coating™, the Brush Guide for Small Pipes provides better control and more consistency in bends leading to better coating quality and reduced resin usage. Works well in small pool pipes with sharp bends! Includes: 1x 50m Brush for DN40, 1x 60m Brush for DN50, 1x Brush Guide Cube for Pool Pipes.

Product #	Model/Part	MSRP
2120000002	DN40-50 - 6mm Shaft	€ 80.00
2120000001	DN40-50 - 8mm Shaft	€ 83.00

Picote Heater 2.0

The Picote Heater 2.0 is highly effective at reducing drying times and boosting efficiency during Picote Brush Coating™ applications. Also use to accelerate drying of wet pipes.

Featuring new dual automatic thermal cut-offs for reliability and safety, adjustable airflow for customised performance, and heating elements that can be independently switched off to allow airflow for effective cooling.

For DN50-300 pipes. Max temperature: 55°C. Max Air Volume (m3/h): 2.1. Max Air Velocity (m/s): 73

Also includes Heater 2.0 Hose 0.7-2.4m (1350000027).

Camera & Smart Heat Sealing Package for Drums

2300000008 € 62.25

Camera & Smart Heat Sealing Package. Includes:

Midi Roller & Wet-Out Station

Battery Powered Model: Hybrid unit for wetting-out DN50-225 CIPP liners. Lightweight (18kg) and compact unit can be powered by the integrated battery (approx. 10h of working time), allowing you to work anywhere without access to electricity. Chargeable while in use or can be run indefinitely while plugged into a power outlet.

Wall Powered Model: Plug-in unit for wetting-out DN50-225 CIPP liners. Lightweight (18kg) and compact unit. Use with transformer in UK.

Variable speed and bi-directional controls.
Size: 360x486x265mm, Speed: 3-9 m/min (variable), Gapping: 4-14mm (0.5mm increments).

The Wet-Out Station is an innovative, practical addition to the Midi Roller. Quickly & easily set up on the job site. No additional power source needed – powered by the Midi Roller. Built-in wheels and transport handle. Weight: 36kg, Size (folded): 1550x632x287mm. Belt Length: 1.5m

Free up a pair of hands by attaching a Picote Liner Holder to the Midi Roller to secure the liner while pouring resin. The Midi Roller comes with a DN100 Midi Roller Liner Holder. Additional Liner Holder sizes DN50-200 also available.

6100000040UK	110v	€ 1,375.00

Liner Compressor 3.0

2350050150

€ 332.00

Quickly and tightly clamps the end of the liner to prevent it collapsing from loss of pressure while replacing CIPP inversion equipment with a Curing Cap or Picote Cannon Fast Cap. For DN50-150 liners.

Picote Original Cannon

2360000001

€ 1,600.00

Light & transparent tool for short CIPP installations: DN50/15m, DN75/10m & DN100/7m. Includes 3 Inversion Heads (DN50, DN70, DN100) and 1 Fast Cap. Comes with Picote Cannon Air Sealing Package, which allows a CCTV camera to be pushed through the Cannon into the pipe. View the liner throughout the installation curing process!

Cannon Spare Parts

Product #	Spare Part	MSRP
900000504	Inversion Head DN50	€ 105.00
900000505	Inversion Head DN70	€ 112.00

900000828	Picote Cannon Cap	€ 24.75

Cannon Fast Cap

2360000004

€ 54.75

Cure multiple liners after CIPP inversion with the Cannon.

Picote Cannon Cap with Hole

900000759

€ 24.75

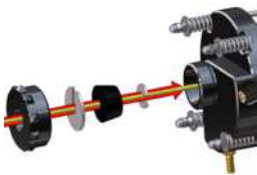

Push CCTV camera through the Cannon. Use in conjunction with Cannon Air Sealing Package.

Cannon Air Sealing Package

900000923

€ 12.45

Allows a CCTV camera to be pushed through the Cannon into the pipe. View the liner throughout the installation curing process! Use in conjunction with Picote Cannon Cap with Hole.

Cannon Fast Cap with Smart Heat Cable Inlet

2360000005

€ 195.00

Enables the use of Smart Heat Cable with Picote Cannon in order to make the curing process faster. Package includes both Mini and Maxi Smart Heat Cable gaskets. Remove gasket to use as Standard Fast Cap without heating cable.

Smart Heat Cable

Lightweight and great value. Speed up ambient CIPP curing process up to 35%. Environmentally friendly option with no risk of water damage. No need for hot water or steam. Use with a Smart Heat Curing Cap.

Product #	Model	Length	MSRP

CIPP Starter Packages!

Convenient packages of the necessities for short CIPP liner installations in DN50-100 pipes. Packages available for ambient, steam, and Smart Heat curing with other tools necessary for wetting-out, installing, and monitoring the liner while it is curing.

Basic Starter Package for Short Liners DN50-100

1010000007

€ 4,799.00

For Ambient Curing with Smart Heat Assist. Includes Original Cannon, 3 Inversion Heads (DN50, DN70, DN100), Mini Roller, Liner Compressor 3.0, Smart Heat Cable 10m, Air Pressure Regulator EU 0-2bar & Cannon Fast Cap for Smart Heat Cable. Convenient starter package for installing short liners: DN50/15m, DN75/10m & DN100/7m.

Basic CIPP Package Ambient for Short Liners DN50-100

1010000008

€ 5,199.00

For Ambient Curing with Pressure Guard Monitoring. Includes Original Cannon, 3 Inversion Heads (DN50, DN70, DN100), Mini Roller, Pressure Guard, Air Pressure Regulator EU 0-2bar & Liner Compressor 3.0.

Basic CIPP Package Steam for Short Liners DN50-100

1010000009

€ 9,999.00

For Steam Curing with Pressure Guard Monitoring. Includes Original Cannon, 3 Inversion Heads (DN50, DN70, DN100), Mini Roller, Pressure Guard, Midi Steamer, Steaming Head Package for Lining, Air Pressure Regulator EU 0-2bar & Liner Compressor 3.0.

Smart Heat Curing Cap

The Smart Heat Cable is pushed through Curing Cap to the liner.

Picote Branch Lining Glue

Glue used for calibration hose and liner in open-end lining process. Can be used with steam up to 60°C.

Product #	Size	MSRP
1320001001	1L	€ 98.00
1320001000	300mL	€ 49.00

CONNECTION COLLAR SYSTEM

Install **T** Or **Y** Connection Collars With Ease.

Picote's upgraded Connection Collar System seals main line and lateral connections protecting against infiltration and exfiltration. Access from main line or lateral. The Sealed Felt Connection Collar seams eliminate the risk of resin leakage and the black seam thread makes it very easy to visually line up the connection for perfect installations, even inside buildings! Optional steam curing for faster project completion available. The new Picote Midi Steamer was developed with this application in mind.

Use epoxy resin with the Sealed Felt Connection Collars for installations inside buildings, and use epoxy or silicate resin with the new Glass Reinforced Polymer (GRP) Connection Collars for strong repairs underground.

Picote Push Rods

Picote's custom Push Rods are strong enough to push and rotate, while also flexible enough to go through multiple bends thanks in part to unique customized connectors that are small enough to maintain flexibility in bends.

The multi-use Push Rods work with the Picote Connection Collars, Bendy Packers, Mini Multi-Cutter, or Grabber Head attachments. There are two versions of Push Rods: a smaller diameter version with extra flexibility for more bends and smaller diameter and a larger version with more rigidity for longer runs and larger pipes. The smaller version comes in two lengths (standard & half-length) and the larger one in standard only.

Use the half-length Push Rod as the last rod close to the pipe access point when only a short additional length is needed. This makes turning and controlling easier during the installation process instead of using a longer rod.

Picote Midi Steamer

Provides superior CIPP steam curing. Can be used in conjunction with the Picote Connection Collar System. Featuring a steam/air mixture temperature sensor, paired with a digital thermostat that can be adjusted to the desired setting. Its automatic system shuts down when low water level is detected. Pair with the Picote Pressure Guard to remotely monitor steam outlet temperature & pressure.

Product #	Model/Part	MSRP
2400000001	Midi Steamer 230v	€ 4,995.00
2400000001UK	Midi Steamer 110v	€ 4,995.00
2400000005	Steamer Air Hose 2m	€ 88.00

Steaming End Package for Lining DN50-70 & DN100-150

2400000006 **€ 172.50**

Allows the Picote Midi Steamer to be used in conjunction with short CIPP liner curing.

Picote Smart Control Unit

1410000047 **€ 987.00**

Seamlessly manage pressure and vacuum down Picote Connection Collar Bladders and Bendy Packers with a simple flip of a lever, reducing set-up time and improving productivity. Take control of your pressure and vacuum needs in one efficient, robust, and portable package. Brings unparalleled ease-of-use and efficiency. Featuring a versatile dual-function design, this device expertly combines air pressure control and vacuum regulation capabilities.

Installation Tool 2.0

Can be used for both ambient and steam curing. A unique cap design allows the use of an integrated one-way flow/steam port.

Product #	Model	MSRP
1410000021	Head 31mm for DN75 & DN100 installations	€ 310.00
1410000022	Head 51mm for DN150 & DN200 installations	€ 357.00
1410000048	Head 91mm for DN225, DN250 & DN300 installations	€ 485.00

Hose Clamp

An alternative to the Strapping Tool and Cable Ties. To be used with Installation Tool Heads for clamping Bladders on the head.

Product #	Model	MSRP
9500000385	For DN75 & DN100 installations	€ 4.75
9500000387	For DN150 installations	€ 5.50

**Push Rod 22mm for
DN70-150 Pipes - 1.5m**

1410000023 **€ 235.00**

Designed to be both strong enough to push and rotate, while also flexible enough to go through multiple bends when needed. Can also be used with steam curing and Picote Mini Multi-Cutter. Available in 1.5m lengths.

**Short Push Rod 22mm for
DN70-150 Pipes - 0.75m**

1410000049 **€ 190.00**

Use the half-length Push Rod as the last rod close to the pipe access point when only a short additional length is needed. This makes turning and controlling easier during the installation process instead of using a longer rod. Can also be used with steam curing and Picote Mini Multi-Cutter. Available in 0.75m lengths.

**Push Rod 24mm for
DN100-300 Pipes - 1.5m**

1410000032 **€ 285.00**

A more rigid rod for longer runs and larger pipes. Designed to be both strong enough to push and rotate, while also flexible enough to go through multiple bends when needed. Can also be used with steam curing and Picote Mini Multi-Cutter. Available in 1.5m lengths.

CC Adapter Hose Steinco 161

900003350 **€ 218.00**

Steinco 161 Adapter Hose for Picote Push Rods. Picote Female -Steinco 161 Female.

CC Adapter Hose Steinco 126 Hex

900003349 **€ 239.00**

Steinco 126 Hex Adapter Hose for Picote Push Rods. Picote Female-Steinco 126 Hex Female.

Turning Handle

1410000024 **€ 292.00**

The Turning Handle makes positioning the Connection Collar easy. An air valve facilitates the inflation process, so you are able to control how much pressure/air you let into the Bladder. This allows you to guide the Connection Collar to the precise location before fully inflating it. Can also be used with the Grabber Head for Push Rods & Mini Multi-Cutter.

Air Pressure Regulator 0-2bar

2340000001 **€ 269.00**

0-2bar model for use with the Picote Connection Collar System.

Installation Tool 2.0 Air Adapter

1410000025 **€ 186.00**

Designed to replace the Turning Handle during the wet-out and curing process. This allows the release of the Turning Handle, in order to be used while the previous installation is curing.

Pocket Vacuum

1410000000 **€ 236.00**

For vacuum and installation of Connection Collars.

**Installation Tool 2.0
Accessories Starter Kit**

1410000035WO **€ 129.00**
1410000035 **€ 129.00**

Includes Hybrid Tape, Sealing Tape, Cover Tape, Bladder Release Agent, & Bladder Lubricant Oil or Spray in a Picote Tool Bag.

Product number ending in WO comes with Bladder Lubricant Oil.

Installation Tool Hybrid Tape

1410000026

€ 8.00

Ideal for securing the Connection Collar before installation. 41m roll.

Installation Tool Sealing Tape

1410000027

€ 28.85

Provides a complete seal between the Installation Tool Head and Bladder. Also has a high temperature resistance to work when using steam. 3m roll.

Installation Tool Cover Tape

1410000028

€ 12.85

Strong tape used to cover the clamps which hold the Bladder on the Tool Head. 50m roll.

Strapping Tool & Cable Ties

1410000029

€ 1,675.00

1410000031

€ 167.00

Use with the stainless steel Cable Ties (1410000031) to make the connection between the Installation Tool Head and Bladder airtight when the standard Hose Clamps are too large to allow for complicated pipe turns, diameter changes, or reduced pipe diameters. Cable Ties come in packages of 25 pieces.

Bladder Lubricant Spray

1410000037

€ 17.00

Lubricant for bladders. To be used inside bladders to lubricate inner surface.

Bladder Release Agent

1410000039

€ 29.75

Prevents Epoxy from sticking to the Bladder, allowing for easy removal of the Bladder.

Silicone Glue 90mL

1410000038

€ 58.00

For repairing/patching holes on Bladders.

Connection Collar Installation Tool Starter Package DN70-100

1410000044

€ 2,514.00

Includes Installation Tool 2.0 Head 31mm for 70-100 Pipes, Turning Handle, 5x Push Rod 22mm, Installation Tool 2.0 Air Adapter, Pocket Vacuum, Air Pressure Regulator 0-2bar, 2x Hose Clamp 32-44mm for 31mm Head & Bladder Packing Stick 600mm.

Connection Collar Installation Tool Starter Package DN150-200

1410000045

€ 2,712.00

Includes Installation Tool 2.0 Head 51mm for 150-200 Pipes, Turning Handle, 5x Push Rod 24mm, Installation Tool 2.0 Air Adapter, Pocket Vacuum, Air Pressure Regulator 0-2bar, 2x Hose Clamp 50-65mm for 51mm Head & Bladder Packing Stick 600mm.

Connection Collar Installation Tool Starter Package DN225-300

1410000046

€ 2,878.00

Includes Installation Tool 2.0 Head 91mm for 225-300 Pipes, Turning Handle, 5x Push Rod 24mm, Installation Tool 2.0 Air Adapter, Pocket Vacuum, Air Pressure Regulator 0-2bar, 4x Hose Clamp 87-112mm for 91mm Head & Bladder Packing Stick 925mm.

Glass Fibre (GRP) Connection Collars

Picote has developed a Glass Reinforced Polymer (GRP) Connection Collar. These can be installed using either epoxy resin or silicate resin for a faster result and with the increased structural integrity that glass fibre offers. Longer collar lengths enable the material to meet global standards. The GRP system installation process is simple and customer friendly, with less mess and waste. A fast installation also means a reduction in labour costs and increase in productivity. Use inside buildings or for strong underground repair.

Picote Bendy Packers

The Picote Pro Packer series offers upgraded tools with new innovation. When needed, navigational guides assist the Packer through various pipe bends and turning into secondary lines.

The **Picote Bendy Packers** are specially designed for repairs in pipe bends but work great in straight sections too! They expand from the middle to ensure a wrinkle-free end result. These packers can be pushed through several bends to the renovation location through the innovative and patented Front Wheel Drive system which allows them to travel longer distances and easily navigate through multiple 90° bends.

Packer Ordering Guide

Use standard Picote Bendy Packers with Picote's new high quality Push Rods. Both Pro Packer series also available with customised couplings to fit your existing push rods. To order standard Picote Packers with Picote Standard Male Coupling, please use the normal Packer product number (PN). For other coupling types please see the table below and add the product number extension to the standard Picote product number of the Packer size required.

Packer Coupling Required	Product Number Extension
Picote Standard Male	No extension required
Steinco 161 Female	_SC161
Standard EU Male	_EU
Steinco 126 Female without Hexagon (fits to Standard EU Male fitting)	_EUF
Steinco 126 Female with Hexagon	_SC126

Packer Navigation System

Assists the packer through various pipe bends and turning into secondary lines.

Product #	Pipe Size	Diameter	MSRP
1510000001	DN50-70	30mm	€ 100.00
1510000002	DN100-150	60mm	€ 100.00
1510000003	DN200+	80mm	€ 100.00

Front Wheel Drive Glass Fibre Rod

1510000004 **€ 699.00**

40m of 7.5mm glass fibre rod in a vertical frame. Frame is galvanized.

**Push Rod 22mm for
DN70-150 Pipes - 1.5m**

1410000023 **€ 235.00**

Designed to be both strong enough to push and rotate, while also flexible enough to go through multiple bends when needed. Available in 1.5m lengths.

**Short Push Rod 22mm for
DN70-150 Pipes - 0.75m**

1410000049 **€ 190.00**

Use the half-length Push Rod as the last rod close to the pipe access point when only a short additional length is needed. This makes turning and controlling easier during the installation process instead of using a longer rod. Available in 0.75m lengths.

**Push Rod 24mm for
DN100-300 Pipes - 1.5m**

1410000032 **€ 285.00**

A more rigid rod for longer runs and larger pipes. Designed to be both strong enough to push and rotate, while also flexible enough to go through multiple bends when needed. Available in 1.5m lengths.

Installation Tool 2.0 Air Adapter

1410000025 **€ 186.00**

Designed to replace the Turning Handle during the wet-out and curing process. This allows the release of the Turning Handle, in order to be used while the previous installation is curing.

Air Pressure Regulator 0-4bar

2340000002 **€ 289.00**

0-4bar model for use with Picote Bendy Packers.

**Bendy Packer Starter
Package DN70-100**

1510000005 **€ 2,758.00**

Includes Picote Bendy Packer DN70-100 / 120cm, 5x Push Rod 22mm (1.5m), Installation Tool 2.0 Air Adapter, Air Pressure Regulator 0-4bar & Packer Navigation System 30mm.

**Bendy Packer Starter
Package DN100-150**

1510000006 **€ 2,808.00**

Includes Picote Bendy Packer DN100-150 / 120cm, 5x Push Rod 22mm, Installation Tool 2.0 Air Adapter, Air Pressure Regulator 0-4bar & Packer Navigation System 60mm.

**Bendy Packer Starter
Package DN150-200**

1510000007 **€ 3,408.00**

Includes Picote Bendy Packer DN150-200 / 150cm, 5x Push Rod 24mm, Installation Tool 2.0 Air Adapter, Air Pressure Regulator 0-4bar & Packer Navigation System 80mm.

Packer Air Hose G1¼" to Steinco126

900003271 **€ 148.00**

Steinco126 Air adapter for Picote Packers.

Packer Air Hose G1⅛" to Steinco126

900003270 **€ 148.00**

Steinco126 Air adapter for Picote Packers.

1 – includes 3m integrated push rod, 2 – includes 5m integrated push rod, 3 – includes 10m integrated push rod

Pipe Cutter DN100 Ultra Flex

1250000101 € 752.00

For 12mm Shaft. Used to cut over-shot liners when there is a bend before the cutting location. For spare panels, use DN100 panels (1250000100).

Pipe Cutter DN150 Ultra Flex

1250000151 € 775.00

For 12mm Shaft. Used to cut over-shot liners when there is a bend before the cutting location. For spare panels, use DN150 panels (1250000150).

Pipe Cutter DN200 Ultra Flex

1250000200 € 835.00

For 12mm Shaft. Used to cut over-shot liners when there is a bend before the cutting location. For spare panels, use DN200 panels (1250000201).

Pipe Cutter Centraliser Package

Includes 2 Centralisers & Spacer Collet.

Product #	Pipe Size	MSRP
1250100100	DN100	€ 115.28
1250150150	DN150	€ 115.28

Pipe Cutter DN70 Panel Package

1250000070 € 247.00

Cut over-shot liners in a straight section of pipe. Includes 4 panels. Use with Picote Smart Cutter™ Hubs. 8mm Shaft: Hub 8.5x20x50 (1000820050) & Hub Disc 2W (1000200020). 10mm Shaft: Hub 35x50 (1001035050A) & Hub Disc 2W (1000200020). 12mm Shaft: Hub 35x50 for DN70-100 (1001235050A) & Hub Disc S (1000200035).

Pipe Cutter DN100 Panel Package

1250000100 € 288.00
900000262PK (Without Centralisers) € 352.50 NEW!

Cut over-shot liners in a straight section of pipe. Includes 4 panels & Centralisers. 10mm Shaft: Hub 35x75 (1001035075A) & Hub Disc S (1000200035). 12mm Shaft: Hub 12.5x35x75 (1001235075A) & Hub Disc S (1000200035). Includes 2 Pipe Cutter Centralisers and Spacer Collet.

Pipe Cutter DN150 Panel Package

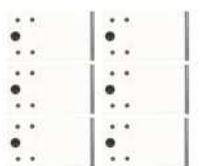

1250000150 € 302.00
900000261PK (Without Centralisers) € 257.50 NEW!

Cut over-shot liners in a straight section of pipe. Includes 4 panels & Centralisers. 10mm Shaft: Hub 35x100 (1001035100A) & Hub Disc S (1000200035). 12mm Shaft: Hub 12.5x35x100 (1001235100A) & Hub Disc S (1000200040). Includes 2 Pipe Cutter Centralisers and Spacer Collet.

Pipe Cutter DN200 Ultra Flex Spare Panels

1250000201 € 453.00

Spare panels for Pipe Cutter Ultra Flex DN200. Includes 6 panels.

Unblocking Head

Unblocking Head designed for ProLITE Millers for blockages in small diameter pipes.

Product #	Pipe Size	Shaft Size	MSRP
1290006001	DN32-50	6mm	€ 64.75
1290006002	DN50-70	6mm	€ 86.50
1290008001	DN50-70	8mm	€ 192.60

Special Drill Head Cutter

For use in cast iron pipes for initial liner opening and blockages. Square design/side blades allow the Cutter to tumble on obstacles/connections to make hole larger than physical size of drill head.

LAST OF STOCK!

Product #	Size (WxL)	Pipe Size	Shaft Size	MSRP
1310820029	20x29	DN32-40	8mm	€ 152.00

Make A Grab For It!

The Grabber is a must-have on every job site. It allows you to quickly retrieve lost tools or foreign objects blocking a pipe, avoiding costly and time-consuming excavation.

The Small Grabber features an improved operational design and even more grabbing capabilities. Each Small Grabber package includes four different attachments for retrieving lost or foreign items in DN50-75 pipes.

The Original Grabber is designed for pipes of DN100 diameter and above, and the Large Grabber can be used in DN150 and larger pipes.

Picote Original & Large Grabber

While viewing the location with your CCTV camera, simply push the Grabber into position. The grabbing head is easily rotated so you can locate and grip the item with precision. Then, simply turn on the air valve to get a rock-solid grip on the object to pull it out and retrieve it. Turn off the air to release.

Small Grabber

New and improved! Retrieve lost or foreign objects in DN50-DN75 pipes. The Small Grabber is easy to operate and is built with simple mechanics. To rotate simply turn the Tool Turning Knob in either direction. The Tightening Knob is rotated clockwise to close the Jaw and Lasso Grabber Heads. Includes 4 Grabber Heads. Available in 5m and 10m packages.

Product #	Part	MSRP
2370000041	Small Grabber Package 5m	€ 699.00
2370000042	Small Grabber Package 10m	€ 799.00
2370000040	Small Grabber Combo Package 5m & 10m	€ 1,299.00

Spare Parts

Product #	Part	MSRP
2370000043	Small Grabber Jaw Head	€ 99.00

Grabber Head for Picote Push Rods

2370000030 € 785.00

Turn your Picote Push Rods into a Grabber by simply adding this Original Grabber Head to your existing Push Rod string. For DN100 and above. Includes Grabber Jaw Set 1 and 2. Jaws open to max. 8.1cm. Max lifting weight 36.3kg.

Large Grabber Head for Picote Push Rods

2370000050 € 995.00

Turn your Picote Push Rods into a Large Grabber by simply adding this Original Grabber Head to your existing Push Rod string. For DN150 and above. Includes one set of jaws. Jaws open to max. 13cm. Max lifting weight: 68kg.

Picote Grabber

Retrieve lost items or foreign objects. Range: 10m. Max Range: 30m (with extensions). Used with air compressor. Comes with Grabber Jaw Set 1 and 2. Jaws open to max. 80mm. Fits in DN100 pipes or larger. Max lifting weight 36kg.

Product #	Part	MSRP
2370000001	Picote Grabber	€ 1,600.00
2370000002	Picote Grabber Extension 10m	€ 315.00
2370000009	Spare Grabber Head with Jaws	€ 715.00

Grabber Jaw Set 1

2370000003 € 236.37

Choose Jaw Set 1 to pick up chains and debris with good grabbing points.

Grabber Jaw Set 2

2370000004 € 236.37

Use Jaw Set 2 to pick up more rounded and smooth items which are harder to grip.

Grabber Jaw Set 3

2370000006 € 242.35

The longer jaws make the Picote Original Grabber easier to use in larger pipes (DN150+).

Picote Large Grabber

Retrieve lost or foreign objects. Range: 10m. Max Range: 30m (with extensions). Used with air compressor. Comes with one set of jaws. Jaws open to max. 130mm. Fits in DN150 or larger pipes. Max lifting weight 68kg.

Specialised Hands-On Picote Training

Picote has a range of face-to-face training options to help you get the most out of your equipment:

General Training Courses which can be tailored to suit your needs. Get the most out of your Picote Miller and learn the full range of tools and possibilities.

- **Certified Maxi Miller Power+ Training.**
- **Certified Installer Picote Brush Coating™ Training.** Including new Xpress Coating System
- **Connection Collar System Training**
- **CIPP Training**

Tech Support and Virtual Training

Our Team of Technical Experts are available wherever you are in the world! We offer a range of virtual courses to suit your requirements. With a balanced programme of presentations, live demos and an in-depth Q&A, you can learn

about the full range of tools and get the most out of your Picote equipment in the convenience of your own location. We also offer training at customer locations and on site support at your job site.

Cutting & Cleaning Course

(2 days) Review of Picote Millers, equipment setup & maintenance, cleaning and reinstatement tooling with an emphasis on proper operating techniques and choosing the right tools to meet project needs. Additionally covers removing failed CIPP liners & concrete/grout including using the Maxi Power+, cleaning P-traps & 90's using the Mini Cleaner & Midi Cleaner, & specialized tools (Smart Spider, Twister Metal Grinder, Pipe Cutters, Grabbers).

Picote Brush Coating™ Certified Installer

(2 days) Become a Picote Brush Coating™ Certified Installer. Coverage includes pipe preparation, setup & operation of the Smart Mixer, and both Maxi and Mini Coating Pumps, troubleshooting, installation logs, and more! Also available for Xpress Coating System. Once certified, you can offer a manufacturer's backed 10-year product warranty.

Connection Collar Course

(1 day) Includes a hands-on walk through of all equipment and parts including assembly of the Connection Collar System, Collar wet-out, installation, setting up optional steam curing with the Picote Midi Steamer, and post-curing removal.

Maxi Power+ Certification

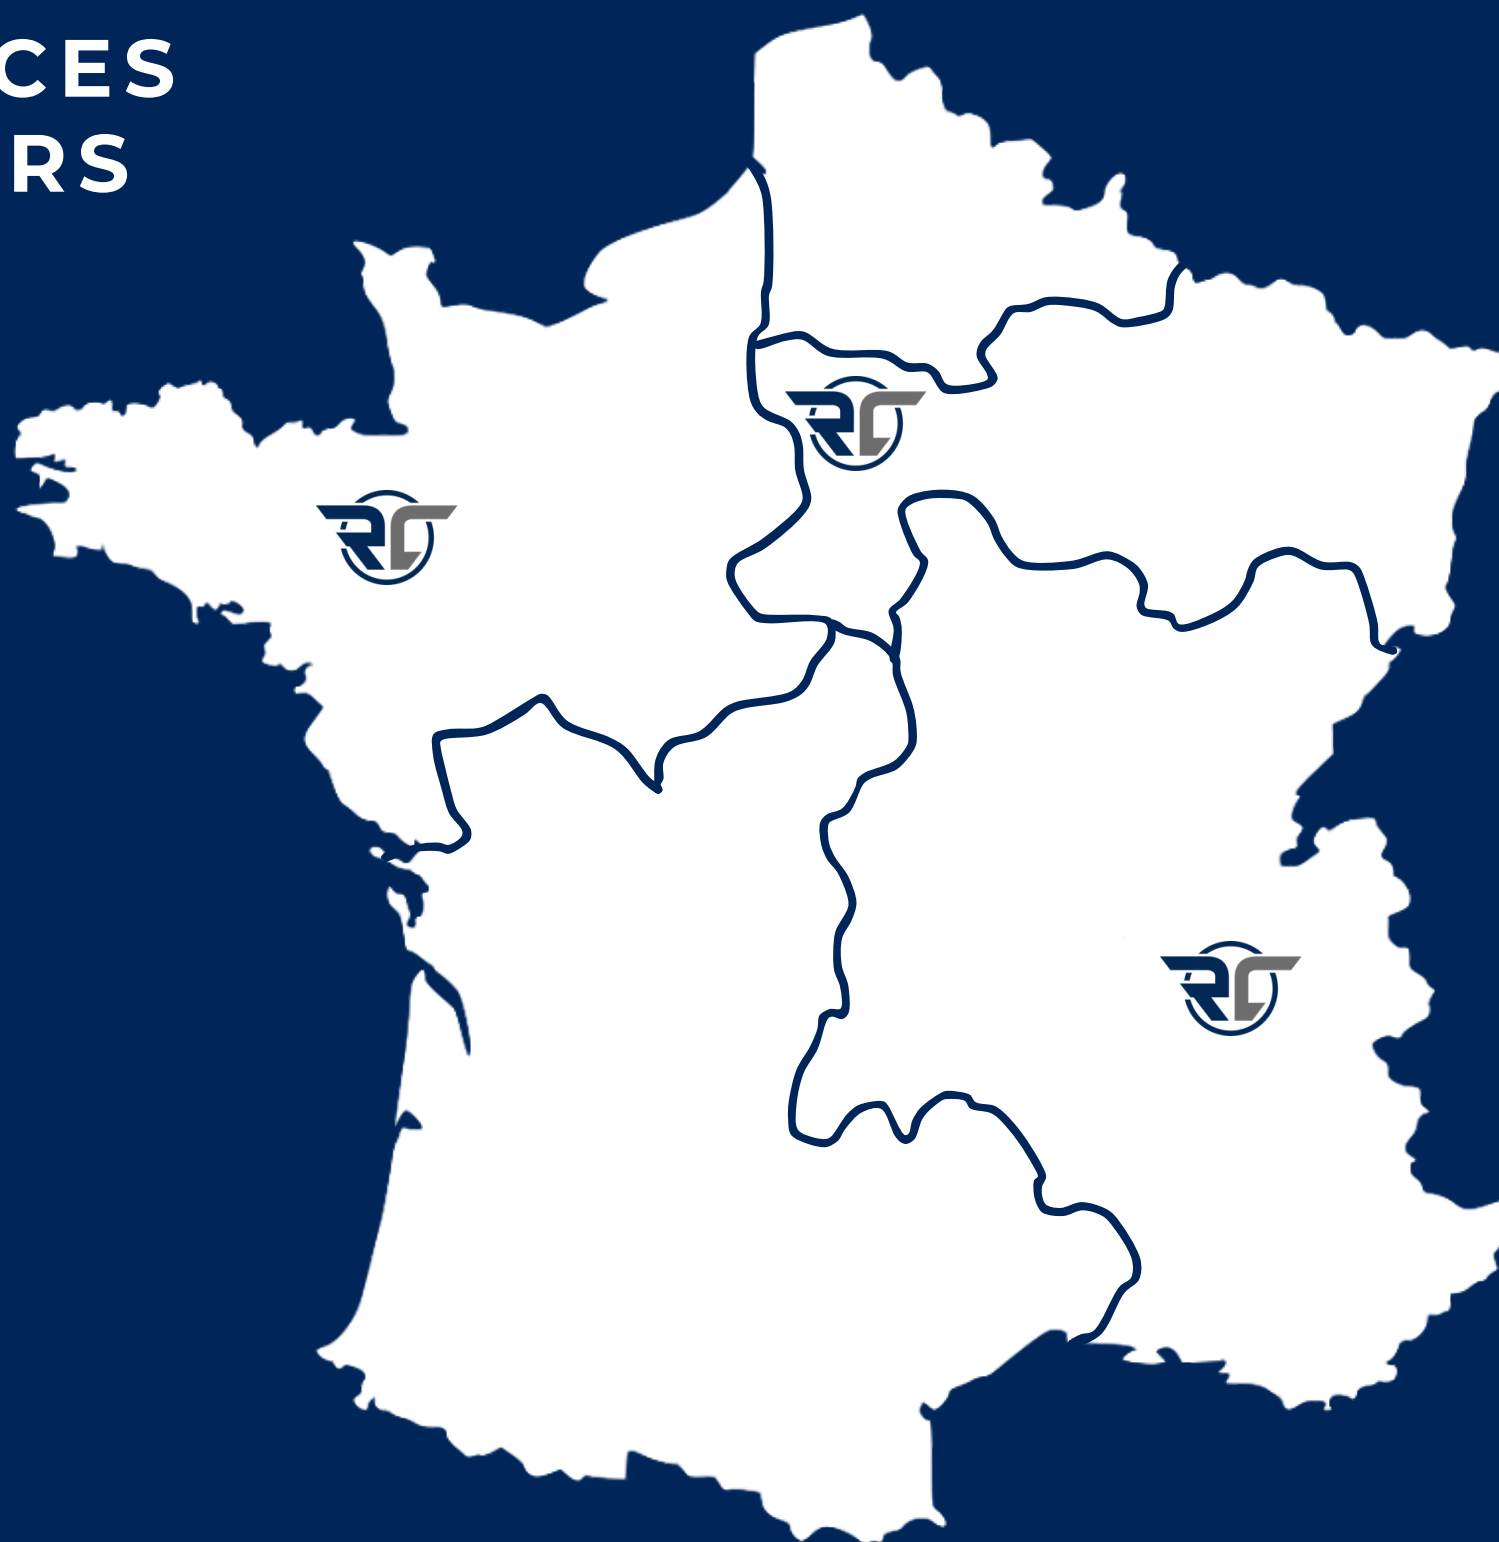

(1 day) Picote's most powerful Miller designed for even higher performance cleaning, lining removal, and cutting/reinstatements in larger diameter pipes. Learn how to setup and safely operate the Maxi Power+, connect to the Picote Generator, and choose and utilize the most appropriate tooling for cleaning, reinstatements, concrete/grout removal, and failed liner removal.
